Effort to Boost Prices in Wall Street Met With a Decided Rebuff.

New York, Dec. 3 .- The constant fluctu-coin the developed a sufficient demand as prices got higher. On the occasional declines there developed a sufficient demand as the check the tendency and rally prices. The constant change in the course of the price movement afforded a harvest for the traders who were sufficiently agle to turn with the tide. Their profits, however, were largely at the expense of other traders less agile. The dealings were almost wholly in the hands of profession-als.

raders less agile. The dealings were almost wholly in the hands of professionals.

News of events did not indicate any marked change in conditions governing values. The money market showed a firmer tone which developed early this week in connection with the settlements, the requisition on banking resources on account of new security issues and the gold exports, Call loans advanced to 3 per cent. Government operations through the sub-treasury have taken from the banks since the last bank statement \$5.52.000, including a withdrawal of government deposits with the banks early in the week. Payment for the gold shipped to France today is not included in the withdrawals to date. The slight effect by the gold shipment makes its evident by the gold shipment makes its evident by the gold shipment makes its evident to the sub-treasure will be made. New 1100 colds.

to Frence today is not included in the withdrawals to date. The slight effect produced on the foreign exchange market by the gold shipment makes its evident that further shipments will be made. New bond issues continue to be announced and bankers report a large demand for their offerings, indicating the good appetite of capital for these investments.

There was selling here of stocks for foreign account in spite of the easier tone of the London discount market based on the failure to advance the official discount rate of the Bank of England. Incoming reports of rafiroad net earnings for October indicate that the September rate of improvement was not fully maintained at that time, either in the september also finprovement was not fully maintained at that time, either in the gross or the net, the decrease in gross being larger and the increase in net by curtailment of operating expenses smaller than in the earlier comparisons. The latest returns of gross earnings for November, also, although comparing with the period last year when the depression began to make itself felt, show no growth in the rate of increase over earlier periods.

The earlier movement to market of both grain and cotton is supposed to be responsible in part for the slowing down in the rate of import. The lull in the iron trade and in copper is of similar importance. The low price of silver is an additional consideration bearing on the metal and mining stocks. United States Steel soid below 54 for the first time since. ditional consideration bearing on the metal and mining stocks. United States Steel sold below 54 for the first time since the week of the national elections. No reason is given for the special strength shown by the Gould group. UNLESS CURED.

We desire to reach the poor as well as the rich man, and by making our fee very low, payable on such easy terms, we thereby increase our business and secure lasting gratitude from thousands who would otherwise remain afflicted if it were not for this liberal offer.

We Cure Kidney and Bladder Diseases, Scrofula, Diseases of the Bowels, Liver, Stomach, Sciatica and Rupture, Bronchitis, Catarrh, Neuralgia, Dyspepsia, Rheumatism, Skin Diseases, and Consultation Free. Get our advice before you place your case with others.

Our cure for weak men stops every drain and builds up the physical and nervous system, purifies and enriches the blood, cleanses and heals the bladder and kidneys, invigorates the liver, revives the spirits, brightens the intellect, and, above all, restores the wasted powers of vitality.
